

DIALOGUE PROGRAM

Introduction and Background

Ever since its foundation, PASSIA has striven to promote free expression within Palestinian society and to foster a better understanding of Palestinian affairs, be they in the domestic or international context. In doing so, PASSIA has earned a reputation for providing a unique forum for dialogue and exchange and for serving as a catalyst for civic debate.

Central to these efforts has been the presentation and analysis of a plurality of Palestinian perspectives and approaches through PASSIA's Dialogue Program. Topics addressed and discussed cover a wide range of subjects broadly and specifically related to the Palestine Question, from historical aspects to the current Middle East Peace Process and internal Palestinian affairs.

The PASSIA Dialogue Program comprises of roundtable meetings and briefings. As part of the former, speakers are invited (and sometimes a discussant as well) to lecture on a certain topic, followed by a discussion with the audience present. These meetings aim to promote thought and debate among Palestinians and between Palestinians and their foreign counterparts. Most of these meetings or 'public lectures' are organized in a hotel in Jerusalem or Ramallah, which offers the space and facilities needed to accommodate the anticipated number of participants (normally ranging between 40-120 people). Speakers, discussants and participants at these meetings include local and foreign figures from a rich diversity of backgrounds and schools of thought: Scholars, professionals and intellectuals from Palestine, Israel and abroad; members of Palestinian NGOs, political factions and the media, as well as representatives of the diplomatic corps.

PASSIA Briefings are a venue for encounters, dialogue and discussions involving representatives and organizations from various backgrounds. These meetings focused on current Palestinian affairs and designed to build bridges of communication and understanding between Palestinians from different streams of society and to develop constructive and focused academic contact between Palestinians and Israelis. PASSIA has also hosted numerous meetings in which resident diplomats, visiting foreign delegations or student groups from international universities invited to discuss Palestinian affairs and exchange thoughts and opinions concerning the situation in the Palestinian Territories. In return, PASSIA receives invitations to meetings with diplomats and visiting foreign dignitaries at other venues helping to consolidate relationships and forge connections between Palestinians and their foreign counterparts.

For more details and related materials regarding meetings that took place during 2015 and 2016 please refer to PASSIA's website (www.passia.org). Dr. Mahdi Abdul Hadi, Chairman of PASSIA, attended all meetings listed in the following.
